THERE IS TO SUBSTITUTE FOR A WOVEN WIRE BED.

The Woven Wire Bed has become so deservedly popular that 999 out of every 1,000 beds sold are of that make. Why? Because, when properly constructed, it has excellences possessed by no other. A level, flexible top, no gaps, will always resume its shap after use. Its supports, however, must be rigid. Wire or hoop from will not support a spring bed.

When you buy one of Bailey's Rist and Vermin-proof Wire Beds, you get an article very close to perfection. For sale in the Furniture Stores and at the factory on Alapai St. Tel. Main 1661.
